

We have bought an outdoor maths shed with a variety of resources to provide pupils with a variety of mathematical experiences. We hope to build on this over time and continue to develop maths in the outdoors. All classes are being introduced to the maths shed and are developing its use during lessons. I have attached some photos of P1/2 exploring and playing with the resources. I have also attached some comments they made during the session.

Outdoor Numeracy Resources

"I liked the big number shapes" Ayla

"Counting with the shells, I could hear the sea" - Lauren

"playing games" - George.

"I liked the big giant six" - Emily

"Add Hula hoops" - Emma

"Cones" - Joshua.

"Clocks. Giant ones" =
